

VIVA-GO LEADERS

A VIVA-GO leader is someone who is a great listener, who has a great bank of possible questions and most importantly, someone who believes all children, regardless of barriers, have the potential to thrive through supported encouragement, in personal development, learning, and relationships.

QUOTES FROM LEADERS AND COACHES

VIVA- GO is one of the best things ever in my life. I was really bad, a zero, but now I listen and look and am at 10! I am more happy because I have people who care about me. It makes me be nice. If people talk over you, I get sad. When people say 'Do you want to talk?' I am happy. I learned about other people and I help them. I know I can do some stuff without giving up.

You have to try it because it will make you better at stuff!

I like best that it makes me better at stuff. I will never give up. I try to not give up.

It helps you to be all you can be and it gives you steps to get to your goal. It helped me find new ways to solve things.

It inspires you to help yourself and others.

I have found Viva Go very easy to use with my young people. It is simple and highly effective for setting goals and seeing growth. I would recommend it to anyone who is looking for a way to encourage young people and see them grow and develop in their education and personal lives.

It's such a helpful tool to mine for the gold in them. As soon as you start unpacking it you say 'Ah, there you are!' because you find out who their inspiration is and who they hold most dearly.

You can learn all about yourself and your worries.

The VIVA-GO! helps me to take a minute to talk about my talents and my weaknesses. It's encouraging and helps you to grow as a leader.
